DESKTOP APPLICATION DEVELOPMENT

ISCED UNIT CODE: 0613 551 03 A

TVET CDACC UNIT CODE: ICT/CU/SD/CR/02/6/MA

Relationship to Occupational Standards

This unit addresses the Unit of Competency: Develop Desktop Application

Duration of Unit: 240 Hours

UNIT DESCRIPTION

This unit covers the competencies required to develop desktop application. It involves designing desktop application, writing desktop application source code, debugging desktop application, testing desktop application and deploying desktop application.

Summary of Learning Outcomes

| Learning Outcomes | Duration (Hours) |
|---|-------------------------|
| To design desktop application | 60 |
| 2. To write desktop application source code | 60 |
| 3. To debug desktop application | 40 |
| 4. To test desktop application | 50 |
| 5. To deploy desktop application | 30 |
| TOTAL | 240 |
| | |

Learning Outcomes, Content and Suggested Assessment Methods

| Learning | Content | Suggested |
|------------|--|-----------------------------------|
| Outcome | | Assessment |
| | | Methods |
| 1. Design | 1.1. Desktop application design tools | • Practical |
| desktop | 1.1.1. Basic desktop application | Activities |
| applicatio | programming concepts | Project work |
| n | 1.1.1.1. Events | Demonstration |
| | 1.1.1.2. Objects | Group Work |
| | 1.1.1.3. Controls | Observation |
| | 1.1.1.4. Methods | • Portfolio of |
| | 1.1.2. Application development stages | Evidence |
| | 1.1.3. Identifying Desktop Application | • Written tests |
| | Design Tools | |
| | 1.1.4. Overview of desktop application | |
| | design tools | |
| | 1.1.5. Criteria for selecting tools | |
| | 1.1.6. Case studies of tool selection in | |
| | real-world applications | |
| | 1.2. Designing Application Functionality | |
| | 1.2.1. Techniques for gathering user | |
| | requirements | |
| | 1.2.2. Mapping user needs to | |
| | application features | |
| | 1.2.3. Prioritizing functionality based | |
| | on user feedback | |
| | 1.3. Creating the Application Interface | |
| | 1.3.1. Principles of effective user | |

| | interface design | |
|------------|---|-----------------------------------|
| | 1.3.2. Creating wireframes and | |
| | prototypes | |
| | 1.3.3. User testing and feedback | |
| | incorporation | |
| | 1.4. Designing Application Output | |
| | 1.4.1. Types of application output | |
| | (reports, visualizations) | |
| | 1.4.2. Qualities of a good system user | |
| | output | |
| | 1.4.3. Methods for testing and | |
| | validating system output | |
| 2. Write | 2.1. Identifying Development Tools | • Practical |
| desktop | 2.1.1. Overview of desktop application | Activities |
| applicatio | development tools | Project work |
| n source | 2.1.2. Visual Studio, Netbeans, | Demonstration |
| code | JetBrains July 1 | • Group Work |
| | 2.1.3. Criteria for selecting tools based | Observation |
| | on system requirements | • Portfolio of |
| | 2.1.4. Examples of popular | Evidence |
| | development environments (e.g., | • Written tests |
| | Visual Studio, Netbeans, JetBrains) | |
| | 2.1.5. Parts of Integrated Development | |
| | Environment | |
| | 2.1.6. Types of controls and objects | |
| | 2.1.6.1. Buttons | |
| | 2.1.6.2. Textboxes | |
| | 2.1.6.3. Labels | |
| | 2.1.6.4. Combobox | |
| | 2.1.6.5. Datagrid | |
| | 2.1.6.6. Listview | |
| | 2.1.6.7. Forms | |
| | 2.2. Developing Application Interface | |
| | 2.2.1. Implementing the interface | |
| | | |

- design as per specifications
- 2.2.2. Using design patterns and frameworks (e.g., MVC)
- 2.2.3. Ensuring user experience (UX) best practices are followed
- 2.3. Designing the Database
 - 2.3.1. Understanding user needs for data management
 - 2.3.2. Choosing the right database model (e.g., relational vs. NoSQL)
 - 2.3.3. Creating data schemas and relationships
- 2.4. Database Integration
 - 2.4.1. Techniques for integrating databases with applications
 - 2.4.2. Ensuring data consistency and integrity eg datafield constraints
 - 2.4.3. Using APIs and ORM (Object-Relational Mapping) tools
- 2.5. Implementing Application Functionality
 - 2.5.1. Writing source code to meet user requirements
 - 2.5.2. Testing functionality through unit and integration tests
 - 2.5.3. Iterative development and user feedback incorporation
- 2.6. Observing Workplace Safety and Health Practices
 - 2.6.1. Overview of OSHA regulations relevant to software development
 - 2.6.2. Best practices for maintaining a safe workplace
 - 2.6.3. Importance of ergonomics and safe equipment usage

| 3. Debug desktop application | 2.7. Identifying E-Waste Storage and Disposal Methods 2.7.1. Understanding e-waste regulations as per OSHA 2.7.2. Proper storage techniques for electronic waste 2.7.3. Safe disposal methods and recycling options 2.8. Demonstrating E-Waste Management 2.8.1. Implementing e-waste management practices in the workplace 2.8.2. Training staff on e-waste handling and disposal 2.8.3. Monitoring and reporting e-waste management efforts 3.1. Checking Source Code for Bugs and Errors 3.1.1. Techniques for static code analysis 3.1.2. Manual code review practices 3.2. Performing Debugging with Tools 3.2.1. Overview of popular debugging tools (e.g., GDB, Visual Studio Debugger) 3.2.2. Best practices for using debugging tools effectively 3.2.2.1. Breakpoints 3.2.2.2. Step options 3.2.2.3. Running commands eg Break, Pause & Stop 3.2.2.4. Examining variables & expressions 3.3. Conducting Regression Testing 3.3.1. Types of regression testing (e.g., | Practical Activities Project work Demonstration Group Work Observation Portfolio of Evidence Written tests |
|------------------------------|---|--|
| | expressions | |
| | | |
| | automated vs. manual) 3.3.2. Strategies for identifying test cases | |

| | for regression | |
|--|---|---------------------------------|
| 3.4. Documenting Source Code Changes | | |
| 3.4.1. Importance of version control | | |
| | systems (e.g., Git) | |
| | 3.4.2. Best practices for maintaining clear | |
| | and concise documentation | |
| 4. Test | 4.1. Identifying Testing Types | • Practical |
| desktop | 4.1.1.Testing types | Activities |
| applicatio | 4.1.1.1.Unit test | • Project work |
| n 4.1.1.2. Integration test | | • Demonstration |
| | 4.1.1.3.Usability test 4.1.1.4.System testing | • Group Work |
| | 4.1.1.5. Security test | Observation |
| | 4.1.1.6.Performance test | • Portfolio of |
| | 4.1.1.7.Compatibility test | Evidence |
| | 4.1.2.Selecting appropriate testing types | • Written tests |
| | based on user requirements | |
| | 4.2. Preparing Test Plan | |
| | 4.2.1. Key components of a test plan (e.g., | |
| | objectives, scope, resources) | |
| | 4.2.2. Best practices for aligning the test | |
| | plan with work procedures | |
| | 4.3. Executing Tests as per Test Plan | |
| | 4.3.1. Methods for executing various tests | |
| | (manual vs. automated) | |
| | 4.3.2. Tracking test progress and issues | |
| | during execution | |
| | 4.4. Preparing the Test Report | |
| 4.4.1. Essential elements of a test report | | |
| (e.g., findings, recommendations) | | |
| 4.4.2. Best practices for documenting | | |
| | results according to work procedures | |
| 5. Deploy | 5.1. Identifying Deployment Strategy | • Practical |
| desktop | 5.1.1. Overview of deployment strategies | Activities |

| (e.g., phased, big bang) | Project work |
|---|---|
| 5.1.2. Factors influencing the choice of | • Demonstration |
| deployment strategy based on work | • Group Work |
| procedures | Observation |
| 5.2. Identifying Deployment Tools | • Portfolio of |
| 5.2.1. Overview of popular deployment tools | Evidence |
| (e.g., InstallShield, NSIS) | • Written tests |
| 5.2.2. Evaluating tools based on user | |
| requirements and application needs | |
| 5.3. Packaging the Application | |
| 5.3.1. Best practices for creating installation | |
| packages | |
| 5.3.2. Ensuring compliance with application | |
| requirements (e.g., dependencies, | |
| configurations) | |
| 5.4. Distributing the Application | |
| 5.4.1. Methods for distributing applications | |
| (e.g., direct download, app stores) | |
| 5.4.2. Ensuring distribution aligns with | |
| established work procedures | |
| | 5.1.2. Factors influencing the choice of deployment strategy based on work procedures 5.2. Identifying Deployment Tools 5.2.1. Overview of popular deployment tools (e.g., InstallShield, NSIS) 5.2.2. Evaluating tools based on user requirements and application needs 5.3. Packaging the Application 5.3.1. Best practices for creating installation packages 5.3.2. Ensuring compliance with application requirements (e.g., dependencies, configurations) 5.4. Distributing the Application 5.4.1. Methods for distributing applications (e.g., direct download, app stores) 5.4.2. Ensuring distribution aligns with |

Suggested Delivery Methods

- Instructor led facilitation using active learning strategies
- Demonstration by trainer
- Practical work by trainees
- Viewing of related videos
- Field Visits
- Group Work
- Role plays
- Group projects

Recommended Resources for 25 Trainees

| S/No. | Category/Item | Description/ Specifications | Quantity | Recommended Ratio (Item: Trainee) |
|-------|---|--|----------|---|
| A | Learning Materials | | | |
| 27. | Internet connection | ✓ For each computer | 1 | 1:1 |
| 28. | Flip charts | A1 | 1 | 1:25 |
| 29. | Textbooks | For reference | 3 | 3:25 |
| B | Learning Facilities & infrastru | 1 | | 0.20 |
| 30. | Computer Laboratory | To accommodate 25 Learners | 1 | 1:25 |
| 31. | Theory Room | furnished with 25 Arm-chairs and a suitable trainer's table | 1 | 1:25 |
| С | Consumable materials | · | | |
| 32. | Printing papers | A4 | 2 Reams | 1:12 |
| 33. | Toner / Ink bottles | For printers | 2 pcs | 1:12 |
| 34. | White board markers | Assorted colors | 20 | 4:5 |
| D | Tools and Equipment | | | |
| 35. | Computers | ✓ Genuine Windows/Linux ✓ Genuine Microsof office Software ✓ Google Workspac Account ✓ Antivirus Software ✓ Suitable IDE | 25 | 1:1 |
| 36. | External storage media | HDD / SSD / Flash | 1 | 1:25 |
| 37. | Printer | Working printer | 2 | 1:12 |
| 38. | 1 Smart-board / Smart TV / Projector (with screen) | Where available | 1 | 1:25 |
| 39. | Whiteboard/Chalkboard | 4 X 8 Feet | 1 | 1:25 |
