

DEMONSTRATE ENVIRONMENTAL LITERACY

UNIT CODE : FAS/OS/FD/BC/06/3/A

UNIT DESCRIPTION

This unit specifies the competencies required to follow procedures for environmental hazard control, follow procedures for environmental pollution control and comply with workplace sustainable resource use.

ELEMENTS AND PERFORMANCE CRITERIA

ELEMENT	PERFORMANCE CRITERIA
1. Control environmental hazard	These are assessable statements which specify the required level of performance for each of the elements. <i>Bold and italicized terms are elaborated in the Range</i> 1.1 <i>Storage and handling methods</i> for environmentally <i>hazardous</i> materials are strictly followed according to environmental regulations and OSHS. 1.2 <i>Disposal methods</i> of hazardous wastes are followed at all times according to environmental regulations and OSHS. 1.3 <i>PPE</i> is used according to OSHS.
2. Control environmental Pollution	2.1 <i>Environmental pollution control measures</i> are complied with following standard protocol. 2.2 Procedures for solid waste management are observed according Environmental Management and Coordination Act 1999 2.3 Methods for minimizing <i>noise pollution</i> complied following environmental regulations.
3. Demonstrate sustainable resource use	3.1 Methods for minimizing wastage are complied with. 3.2 <i>Waste management procedures</i> are employed following principles of 3Rs (Reduce, Reuse, Recycle) 3.3 Methods for economizing or reducing <i>resource</i> consumption are practiced.

RANGE

This section provides work environments and conditions to which the performance criteria apply. It allows for different work environments and situations that will affect performance.

Variable	Range
<ul style="list-style-type: none"> PPE may include but are not limited to: 	<ul style="list-style-type: none"> Mask Gloves Goggles Safety hat Overall Hearing protector
<ul style="list-style-type: none"> Environmental pollution control measures may include but are not limited to: 	<ul style="list-style-type: none"> Methods for minimizing or stopping spread and ingestion of airborne particles Methods for minimizing or stopping spread and ingestion of gases and fumes Methods for minimizing or stopping spread and ingestion of liquid wastes
<ul style="list-style-type: none"> Waste management procedures may include but are not limited to: 	<ul style="list-style-type: none"> Sorting Storing of items Recycling of items Disposal of items
<ul style="list-style-type: none"> Resources may include but are not limited to: 	<ul style="list-style-type: none"> Electric Water Fuel Telecommunications Supplies Materials
<ul style="list-style-type: none"> Workplace environmental hazards may include but are not limited to: 	<ul style="list-style-type: none"> Biological hazards Chemical and dust hazards Physical hazards

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit of competency.

Required Skills

The individual needs to demonstrate the following skills:

- Following storage methods of environmentally hazardous materials
- Following disposal methods of hazardous wastes
- Using PPE
- Practicing OSHS
- Complying environmental pollution control
- Observing solid waste management
- Complying methods of minimizing noise Pollution
- Complying methods of minimizing wastage
- Employing waste management procedures
- Economizing resource consumption

Required Knowledge

The individual needs to demonstrate knowledge of:

- Storage methods of environmentally hazardous materials
- Disposal methods of hazardous wastes
- Usage of PPE Environmental regulations
- OSHS
- Types of pollution
- Environmental pollution control measures
- Different solid wastes
- Solid waste management
- Different noise pollution
- Methods of minimizing noise pollution
- Solid Waste Act
- Methods of minimizing wastage
- Waste management procedures
- Economizing of resource consumption
- Principle of 3Rs

EVIDENCE GUIDE

This provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge and range.

<p>1. Critical Aspects of Competency</p>	<p>Assessment requires evidence that the candidate: 1.1 Controlled environmental hazard</p>
--	---

	<p>1.2 Controlled environmental pollution</p> <p>1.3 Demonstrated sustainable resource use</p>
2. Resource Implications	<p>The following resources should be provided:</p> <p>2.1 Workplace with storage facilities</p> <p>2.2 Tools, materials and equipment relevant to the tasks (ex. Cleaning tools, cleaning materials, trash bags, etc.)</p> <p>2.3 PPE</p> <p>2.4 Manuals and references</p>
3 Methods of Assessment	<p>Competency in this unit may be assessed through:</p> <p>3.1 Demonstration</p> <p>3.2 Oral questioning</p> <p>3.3 Written examination</p>
4 Context of Assessment	<p>Competency may be assessed on the job, off the job or a combination of these. Off the job assessment must be undertaken in a closely simulated workplace environment.</p>
5 Guidance information for assessment	<p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.</p>
