# PERFORM WORKSHOP PRACTICE

# UNIT CODE: ENG/OS/IPO/CC/01/5/A

### UNIT DESCRIPTION

This unit covers the competencies for preparing materials, tools and equipment, and performing basic metal works based on the required performance standards.

ELEMENT	DEDEODMANCE CDITEDIA
These describe the key outcomes which make up workplace function.	<b>PERFORMANCE CRITERIA</b> These are assessable statements which specify the required level of performance for each of the elements. <b>Bold and italicized terms are elaborated in the Range</b>
1. Prepare materials, tools and equipment	<ul> <li>1.1 Working drawings are interpreted to determine job requirements</li> <li>1.2 <i>Tools, equipment</i> and materials are identified and prepared according to job requirements</li> <li>1.3 Materials are checked according to the required specifications</li> </ul>
	1.4 Tools and equipment conditions are checked following the standard operating procedures (SOPs)
2. Perform required	2.1 Appropriate <b>PPE</b> and safety procedures are applied
basic metal	2.2 <i>Work instructions</i> are followed to ensure work safety
works	requirements
	2.3 <i>Basic metal works</i> are performed applying knowledge on
	safety procedures and according to job requirements
	<ul><li>2.4 <i>Dimensions</i> are marked out according to job requirements</li><li>2.5 Dimensions are checked against the actual drawings</li><li>2.6 Work pieces are clamped in <i>work holding device</i> to avoid</li></ul>
	damage and accidents
	2.7 Work pieces are cut, chipped or filed according to required measurements, tolerance specified in the working drawings and free from burrs and sharp edges
	2.8 Drilling is performed according to recommended sequence and specifications
	2.9 Joining is performed as per job requirements
	2.10 Proper usage of materials is observed
	2.11 Tools, equipment and recyclable materials are stored in
	accordance to work place procedures.

# ELEMENTS AND PERFORMANCE CRITERIA

2.12 Worksite is cleaned and cleared in accordance with OSH
regulations

# RANGE

This section provides work environment and conditions to which the performance criteria apply. It allows for different work environment and situations that will affect performance.

• <i>Materials</i> may include but not limited	Steel brackets
to:	Grinding disc
	• Drill bit
	• Flat/angle bars
	• Fastening screws
	• Sheet metal
	• Mild steel tubes
	• Rivets
Tools and equipment may include but	• May include but not limited
not limited to:	to:
13	• Portable grinder
S	Hacksaw
05	• File
	• Scribers
	Screw drivers
	Ballpein hammers
	Measuring tapes
	• Steel rule
	• PPE
	• Portable electric drill
	Brush wire
	• Tri-square
	Chisels
	Snips
	• Mallets
• Dimensions may include but not limited	Measurements
to:	• Tolerances
Work instructions may include but not	Work plans
limited to:	• Drawings
	• Manufacturer's
	•

	specifications
Personal Protective Equipment (PPE)	Safety shoes
may include but not limited to:	• Gloves
	• Goggles
• Basic metal works may include but not	Cutting
limited to:	• Filing
	• Drilling
	• Measuring
• Work holding device may include but	• Pliers
not limited to:	• Vice grip
• <i>Manual</i> may include but not limited to:	Procedures manual
	• Instructional manual

# **REQUIRED SKILLS AND KNOWLEDGE**

This section describes the skills and knowledge required for this unit of competency.

#### **Required Skills**

The individual needs to demonstrate the following skills:

- Cutting
- Filing
- Drilling
- Folding
- Joining
- Communicating effectively
- Work safety
- Preparing materials
- Proper handling of tools and equipment
- Decision making

### **Required Knowledge**

The individual needs to demonstrate knowledge of:

- Measurements
- Dimensioning
- Unit conversion
- Basic Benchwork
- Usage of PPE

- Handling of tools, materials and equipment
- Good housekeeping

# **EVIDENCE GUIDE**

This provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge and range.

1.	Critical Aspects of	Assessment requires evidence that the candidate:
	Competency	<ul> <li>1.1 Interpreted drawings to determine job requirements</li> <li>1.2 Identified and prepared materials, tools and equipment in accordance with job requirements</li> <li>1.3 Selected and used appropriate processes, tools and equipment to carry out task</li> <li>1.4 Marked out and checked dimensions in accordance with job requirements and within the tolerances</li> <li>1.5 Followed work instructions</li> <li>1.6 Performed benchworks in accordance with job requirements</li> </ul>
2	Darama	1.7 Cleaned worksite in accordance with OSH regulations
2.	Resource	The following resources must be provided:
	Implications	2.1 Workplace
		2.2 Drawings
		2.3 Materials, tools and equipment relevant to the proposed
2	Methods of	activity
3.		Competency may be assessed through:
	Assessment	3.1 Demonstration
		3.2 Direct observation with oral questioning
		3.3 Written tests
		3.4 Portfolios
<u> </u>	<u> </u>	3.5 Third party reports
4.	Context of	Competency may be assessed on the job, off the job or a
	Assessment	combination of these. Off the job assessment must be
		undertaken in a closely simulated workplace environment.
5.	Guidance	Holistic assessment with other units relevant to the industry
	information for	sector, workplace and job role is recommended.
	assessment
