DEMONSTRATE DIGITAL LITERACY

UNIT CODE: CON/OS/MA/BC/03/4/A

UNIT DESCRIPTION

This unit covers the competencies required to demonstrate digital literacy in a working environment. It entails identifying computer software and hardware, applying security measures to data, hardware, software, applying computer software in solving task sand applying internet and email in communication at workplace.

ELEMENTS AND PERFORMANCE CRITERIA

ELEMENT	PERFORMANCE CRITERIA
These describe the ke outcomes which make up workplace function	performance for each of the elements.
Identify computer software and hardware	 1.1 Appropriate computer software is identified according to manufacturer's specification 1.2 Appropriate computer hardware is identified according to manufacturer's specification
2. Apply security measures to data, hardware, software	 2.1 Data security and privacy are classified in accordance with the technological situation 2.2 Security and control measures are applied in accordance with laws governing protection of ICT 2.3 Computer threats and crimes are detected as per information security management guidelines. 2.4 Protection against computer crimes is undertaken in accordance with laws governing protection of ICT
3. Apply computer software in solving tasks	 3.1 Basic word processing concepts are applied in resolving workplace tasks 3.2 Word processing utilities are applied in accordance with workplace procedures 3.3 Data is manipulated on worksheet in accordance with office procedures
4. Apply internet and email in communication at workplace	accordance with office procedures

RANGE

This section provides work environments and conditions to which the performance criteria apply. It allows for different work environments and situations that will affect performance.

Range	Variable
Appropriate computer	Operating system
software may include but	• MS office
not limited to:	Web browser
	Media players
2. Appropriate computer	Computer Case
hardware may include	Monitor
but not limited to:	Keyboard
	• Mouse
	Hard Disk Drive
	Motherboard
	Video Card
3. Data security and privacy	Confidentiality
may include but not	Cloud computing
limited to:	Confidentiality
	Cyber terrorism
	Integrity -but-curious data serving
4. Security and control	Countermeasures and risk reduction
measures may include	• Cyber threat issues
but not limited to:	Risk management

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit of competency.

Required Skills

The individual needs to demonstrate the following skills:

- Analytical
- Interpretation
- Typing
- Communication
- Computing

Required Knowledge

The individual needs to demonstrate knowledge of:

- Input and output devices
- Central processing Unit (CPU)
- Peripherals
- Storage Media
- Software concept
- Types of concept
- Function of computer software
- Data security and privacy
- Security threats and control measures
- Computer crimes
- Detection and protection of computer crimes
- Laws governing protection of ICT
- Word processing;
- ✓ Functions and concepts of word processing.
- ✓ Documents and tables creation and manipulations
- ✓ Mail merging
- ✓ Word processing utilities
- Spread sheet;
- ✓ Meaning, formulae, function and charts, uses, layout, data manipulation and application to cell
- Networking and Internet;
 - ✓ Meaning, functions and uses of networking and internet.
 - ✓ Electronic mail and world wide web
- Emerging trends and issues in ICT;
 - ✓ Identify and apply emerging trends and issues in ICT
 - ✓ Challenges posed by emerging trends and issues

EVIDENCE GUIDE

This provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge and range.

1. Critical Aspects	Assessment requires evidence that the candidate:
of Competency	1.1 Identified input, output, CPU and storage media devices of
	computers in accordance to computer specification
	1.2 Identified concepts, types and functions of computer software
	according to operation manual
	1.3 Identified and controlled security threats

		1.4 Detected and protected computer crimes
		1.5 Applied word processing in office tasks
		1.6 Prepared work sheet and applied data to the cells in accordance to
		workplace procedures
		1.7 Used Electronic Mail for office communication as per workplace
		procedure
		1.8 Applied internet and World Wide Web for office tasks in
		accordance with office procedures
		1.9 Applied laws governing protection of ICT
2.	Resource	2.1 Access to relevant workplace where assessment can take place
	Implications	2.2 Appropriately simulated environment where assessment can take
		place
		2.3 Materials relevant to the proposed activity or tasks
3.	Methods of	Competency may be assessed through:
	Assessment	3.1 Written tests
		3.2 Practical assignment
		3.3 Interview
		3.4 Oral Questioning
		3.5 Observation
4.	Context of	Competency may be assessed
	Assessment	4.1 On the job
		4.2 Off the job
		4.3 During industrial attachment
5.	Guidance	Holistic assessment with other units relevant to the industry sector,
	information for	workplace and job role is recommended.
	assessment
